

## 21 Acres of Land

### Intro

As I stand on the hills of Mount Tempest  
I can see the sun sink in the west  
And I know that where E're I may wander  
It's the place I will always love best

It's the home of my dreams and my memories  
Where I first learned to crawl and to stand  
And t'was often I'd roam thru the wildwoods  
On our 21 acres of land

### Chorus

So farewell to the green fields of Ireland  
To the family and friends I adore  
In the morning I'll cross the Atlantic  
And I'll work as a farmer no more  
For a man needs a wage for a living  
And we all need to know where we stand  
And you can't keep a wife and a family  
On just 21 acres of land

### Instrumental

My parents worked hard for a living  
And I know they had little to spare  
But there's some things they gave me in plenty  
Such as loving and kindness care

But the world and the times keep on changing  
And my parents may not understand  
That you can't keep a wife and a family  
On just 21 acres of land

### Chorus

No you can't keep a wife and a family  
On just 21 acres of land
