

# It's Friday

## 8 Bar Intro:

Theres a place in town where we all hang out  
Where the country girls go and the boys get loud  
When the whistle blows we'll quiet the crowd  
When the sun sets low on Friday

From the pubs in Ireland to Tennessee  
From the Mellon Country to the Hazel Tree  
And every little town here inbetween  
Oh we know how to party on Friday

## Chorus:

**And the band plays on and the beer it flows  
The boss mans yelling but we've all gone home  
On Monday morning I will return  
But tonight aint monday its Friday**

Oh I have my job but I love my friends  
So you know where i'll be when the work week ends  
At the little country tavern just around the bend  
Oh when the sun sets low on Friday

## Chorus:

Theres a place in town where we all hang out  
Where the country girls go and the boys get loud  
When the whistle blows we'll quiet the crowd  
When the sun sets low on friday

## Chorus: x 2

Tonight ain't Monday its Friday  
Tonight ain't Monday its Friday
