

## The Lights of Rosslare Harbour

### Chorus:

The Lights of Rosslare harbour are fading from my view  
A lone on board the ferry as I sail away from you  
The dreams and plans we cherished as we shared these last few years  
Their showily been extinguished they run my face in tears

This heart of mine it's breaking – it's pounding in my breast  
Still everybody tells me sure you know it's for the best  
But today I lose my best friends as I leave you both behind  
Both you my love and Ireland will be always on my mind

### Chorus

I'm sitting my the window as the ship sails out to sea  
The flashing lights of Tusker they're my only company  
And for a few brief moments as we shared our last farewell  
Who knows how long it will be till I see her lights again

### Chorus

Their showily been extinguished they run my face in tears
