

'Til This Ring Turns Green

Although she and dad were poor my momma had good memories
Of the day when the two of them were wed
He'd been saving all his money for something very special
And on that day here's what my daddy said

Chorus

**My love for you is like this ring that I place on your finger
It's pure gold and it's my guarantee
That I'll love you when your golden hair will someday turn to silver
I will love you till this ring turns green**

Instrumental

Well I'm hoping that the two of us can truly be as happy
As the two of them were blessed enough to be
I hope we have a love that's always very special
I can hardly wait to hear you say to me

Chorus x 2

My love for you is like this ring that I place on your finger
It's pure gold and it's my guarantee
That I'll love you when your golden hair will someday turn to silver
I will love you till this ring turns green
