

Hold onto Your Hat

**Hold onto your hat, and we'll drive this road together
Hold onto your hat, and say you'll be mine forever.**

Oh, you know you are my sweetheart; you're the apple of my eye
To you I bear my soul, without a question why
I'll always to my very best, to never make you cry
I'll care for you and love you true until the day I die.

Chorus:

**Hold onto your hat, and we'll drive this road together
Hold onto your hat, and we'll see all kinds of weather.
Hold onto your hat, and we'll drive this road together
Hold onto your hat, and say you'll be mine forever.**

8 BAR SOLO

Ah, don't worry about times ahead, the future is unknown
With every bend and crossroads, you'll never be alone
And if the days get darker, and the restless winds they blow
And in the dusk, that we can trust our love will take us home

Chorus
