

Say You Love Me

I've waited for you, And always been true,
Waited no longer I can stand,
I know you were trying, To make up your mind,
I've waited as long as I can

Chorus

**I've waited for you to say you love me say you love me
Long for the day you'll take my hand,
I asked again last night, Your loves so divine
I've waited as long as I can**

All I can do, all i can say,
I know I've got to make you understand,
I wanted you for mine, I've wasted my time
I've waited as long as I can

Chorus

So now I say goodbye, Tears rolled from my eye,
You've made it clear that I can't win,
No one would ever know, the pain that I've went through,
I've waited as long as I can

Chorus X2
