

## **If I Could Only Start Over**

If I could only start over  
And have a new life to begin  
I wouldn't live like a rover  
And drift like a leaf in the wind

### **Chorus:**

**For I'm dreaming tonight of old sweethearts  
And believe me I've had quite a few  
But I never dreamed of old sweethearts  
The way that I dream about you**

Well I let you slip through my fingers  
While foolishly searching around  
But if I could only start over  
Well know you could settle me down

### **Chorus X2**

**But I never dreamed of old sweethearts  
The way that I dream about you**
