

It's A Dream Come True

Chorus:

**It's a dream come true,
standing here sharing time with you
It's not so very long ago,
I thought i'd never see another show
But then I asked my Lord,
to give me strength to face the world again
I prayed each night 'don't let the music end'
It's what I love, it's been my life, it's what I do
Give me hope and make my dreams come true**

Everyday I ask myself if i'm dreaming
In my troubled mind I try to find a meaning
My world is filled with all kinds of confusions
Could this be real or just some sad illusion
Now it's been a long hard mountain for me to climb
Thoughts of giving up has happened many times
But always in my heart I guess I always knew
Without a song for me there's nothing else to do

Chorus

9 Bar Solo + Key Change

Chorus

**Give me hope and make my dreams come true
It's a dream come true**
