

# Never Too Old

## CHORUS:

**When your hair turns to Silver and your eyes grow dim  
The years they pass by in the blink of an eye  
But don't ever let your world fall apart  
You're never too old too feel young at heart**

You start out on life's journey the years pass slowly by  
You learn the simple things of life when to laugh and when to cry  
Never thinking what the future holds it's just the here and now  
Trusting in your kinfolk you'll do what they allow

## CHORUS:

### **Solo + New Key**

Many years have come and gone and soon things start to change  
For you know you have a family and weddings to arrange  
Looking back you wonder where has the time all gone  
Your young years are just a memory that move so swiftly on

## CHORUS x2

**Oh you're never too old too feel young at heart**
