

True Friend

Intro

Hold me close, hold me tight
Don't say it's wrong, don't say it's right
Your hearts been broken and mine's been broken too
You need some sympathy
And I can tell you're just like me
A lonely soul that's longing to be free

Chorus

**Everybody needs a reason to keep living
And there were times I found that life have none for me
Now I find peace of mind when your eyes look into mine
I know a true friends finally come my way**

Did your dreams all fall through
Don't you know they sometimes do
For dreams are dreams, and part reality
Won't you try just one more time
Please believe and you will find
That happiness is just a state of mind

Chorus

Instrumental

I want you to be strong
No one can say you don't belong
In a world that's getting brighter day by day
And I know you understand
By the way you hold my hand
I just know a true friends finally come my way

Chorus

Yes I know a true friends finally come my way
