

Good Old Country Songs

Chorus:

I'd love to twirl around the floor, arms around you tight
Dancin' with the girl I love, beneath the ballroom lights.
Drinkin' wine I feel so fine, with you I'll have a ball
When the band starts to play again, those Good Old Country songs.

They'd sing old songs of country love, songs that we all knew
We'd all join in and sing along, have a drink or two
Have a twirl around the floor, dance the night away
When the band starts to play again, those Good Old Country songs.

Chorus

Key Change – G#

People chatting, looking bright. A place where old friends meet.
Talk about those happy times the singer brought to mind.
The fiddle play, the people sway. The music comes to life.
When the band starts to play again, those Good Old Country songs.

Chorus x2

When the band starts to play again, those Good Old Country songs.
