

Ireland's Turning Country

Oh, Ireland's Turning Country, that's a word out on the street
And everywhere you go, toes are tapping to the beat
And all across the nation, when the weekend comes around
They're out there country jiving, in the cities and the towns.

Now when the band begin to play everybody hits the floor
And when the music's over, they all would shout for more.

Chorus:

**Oh Ireland's Turning Country, everywhere you go
From Cork right up to Donegal, from Dublin to Mayo
Me and my band goin' 'cross the land, we're puttin' on a show
People say it's here to say, Ireland's turning country**

5 BAR SOLO

I met a pretty little jiving queen at the country dance one night
I asked her on the floor and we danced all through the night
And when we went slow dancing, she held me so tight
Now we've been together, since she danced into my life.

Now when the band begin to play everybody hits the floor
And when the music's over, they all would shout for more.

Chorus

17 BAR SOLO

Now when the band begin to play everybody hits the floor
And when the music's over, they all would shout for more.

Chorus x2

And I do believe it's here to stay, Ireland's Turning Country...
