

# All Friends Together

## Intro

### Chorus

**We're all friends together  
At the end of every day  
Holding hands and remembering  
All the things we've had to say  
We're all friends together  
That's how we're going to stay  
Adios me amigo, luego me come padre**

It's so good to have seen you all  
And enjoyed your company  
Your smiling faces are all I need  
For a happy memory  
May the sun shine on your journey home  
Wherever that may be  
And the wings of time will bring you back  
Soon safely here to me

### Chorus

## Instrumental

### Key Change

Let's remember all of our absent friends  
They'd love to be here too  
Not forgetting but for the grace of God  
There go me and you  
So let's live each day as it were our last  
Hoping all our dreams come true  
And the picture we have of tomorrows world  
Will soon come into view

### Chorus

**Adios me amigo, luego me come padre**
