

## Honky Tonk Girl

Don't be fooled by big blue eyes  
By a smile or a golden curl  
For she'll love you now and then break every vow  
For she's just a Honky Tonk Girl

### Chorus

**Breaking hearts to her is just a way of having fun  
She thinks every man's a fool and you're another one  
She knows all the arts enough she'll give your heart a twirl  
'Cause she's just a Honky Tonk Girl**

### Instrumental

Well she can never change your ways  
Though you give her all the world  
She's had more than one or two and each day there's someone new  
For she's just a Honky Tonk Girl
