

## **One More Christmas With You**

Another year has gone by in the wink of an eye  
I ask myself where did it go  
It seems like yesterday I saw a reindeer and sleigh  
And heard Santa laugh ho ho ho!

But in the past years, one memory I hold dear  
Of your love that's so kind and true  
And all that I ask like those years in the past  
Is to spend one more Christmas with you

### **Chorus**

**You won't have to shop in Maceys New York  
For a gift tied with ribbons of Blue  
All that I ask like the ones in the past  
Is to spend one more Christmas with you**

### **Instrumental**

It doesn't seem so long since our first Christmas morn  
When there was just you and me  
As each boy and each girl came in to our world  
Old Santa came in to it too

Our Children are grown with kids of their own  
Once more there's just you and me  
And all that I ask like those years in the past  
Is to spend one more Christmas with you

### **Chorus**

**All that I ask like the ones in the past  
Is to spend one more Christmas with you**
