

## Broken White Lines

### Intro

It was my lucky day, when I pulled in that bay  
At the truck stop at west 89  
You looked a sensation, on summer vacation  
When you smiled I could read all the signs

And when we got together, we promised each other  
We'd always be faithful and kind  
You knew from the start, you'd break my heart  
Just like those broken white lines

### Chorus

If you only knew how much I love you  
You'd never have broken my heart  
I cry every day since you went away  
Never thought we'd ever part  
But I now realise all you told me were lies  
You've hurt me so many times  
You broke your word when you said you cared  
Just like those broken white lines

### Instrumental

Now I'm older and wiser, I got my degree  
In the high school of heartache and hurt  
And since I've been burned, my lesson I've learned  
What your false empty promise was worth

So I just travel on, down this long road alone  
Maybe I'll forget you in time  
And maybe some days, I go on my ways  
I won't notice those broken white lines

### Chorus

If you only knew how much I love you  
You'd never have broken my heart  
I cry every day since you went away  
Never thought we'd ever part

### Key Change

But I now realise all you told me were lies  
You've hurt me so many times  
You broke your word when you said you cared  
Just like those broken white lines

### Chorus
