

Dreaming Of You

Chorus

**I'm dreaming' of you through and through
Over and over what can I do
She's here beside me when I'm lonely and blue,
We sleep together when I dream of you.**

Oh I know you told me not to call
You said never, no never at all.
But I thought I'd write this letter just to ask you how you've been
Tell me darlin' are you smilin' like you were in my dreams.

Chorus

Instrumental

I've found another they say we're good together
She's so pretty she loves enough for two.
When I'm cold she makes me warm healed my heart when it was torn
We sleep together but I dream of you.
