

Give A Lonely Heart A Home

Well could that look I see on you
Mean that you might be lonely too
You don't have to feel so bad
You're not the only one that's sad

Just look at all the hearts in town
They're looking for the lost and found
For someone special just like you might come along
To give a lonely heart a home

Chorus

**Just give a lonely heart a home
One it can call its very own
And you could have true love from this moment on
Just give a lonely heart a home**

Instrumental

Well just look close and you might find
The saddest heart in town is mine
And should we give true love a try
Our hearts just might see eye to eye

But if you're looking for a way
To do your good deed for today
The one thing you could do and not go wrong
Is give a lonely heart a home

Chorus x 2

**And you could have true love from this moment on
Just give a lonely heart a home**
