

Gone, Gone, Gone

Intro

She said if I ever deceived her
She'd be gone before I could count ten
Well I guess I didn't believe her
'Cause just look at the trouble I'm in

Chorus

And now she's gone, gone, gone
Gone, gone, gone
Crying won't bring her back
The more that I cry the faster that train flies
Farther on down the track

Instrumental

I've lost every right to be happy
When I lost the heaven I found
She warned me she'd leave and she left me
Before my first tear hit the ground

Chorus

Instrumental

If I only knew where I could find her
I'd crawl there on my hands and knees
But each tick of the clock should remind her
She's one second farther from me
