

Galway Queen

Intro

I loved a girl from a Galway town
But our love could never be
For I longed to see the world
And the treasures it held for me

So I left my native home
Sailed across the raging sea
And to Boston I did go
Worked in a town they called Quincy

As each day passed I did not find
The fame and fortune I had in mind
Her streets were not paved with gold
Even the summer nights seemed cold

Chorus

Oh I miss my Galway Queen
My friends in Athenry
I wish I could be there tonight
With lovely Nancy close by my side

Instrumental

Key Change

Well the days went slowly by
I started longing for my home
What good is searching for a dream
When you're not with the one you love

So before our love grows cold
It's back to Galway I must go
To be with the one I love
And to stray from her no more

Chorus x 2
