

No More Lonely

Intro

Chorus

No more lonely, no more blue
No more broken heart over you
No more teardrops from my eyes
I just told your memory goodbye

I walked round to the station
Had one thing on my mind
I told the old conductor
Send this down the line
Here's a one way ticket don't ever bring it back
I said goodbye you old broken heart as the train went down the track

Chorus

Instrumental

I stood by the fireplace
The fire was burning hot
And all your old love letters
In an old shoe box
There was a time I'd sit alone
And read those words you wrote
But that's all over now they're all gone up in smoke

Chorus

Chorus

I just told your memory goodbye
