

## **Like Father Like Son**

Like father like son, like mother like daughter.  
What is sown by the one. will grown by the other.  
What we are when we're old. Is what we learn when we're young.  
You may wander from the fold. Like father like son.

Now I knew a man when I was a child  
He was so calm, and I was so wild  
But I always wished, I could be that way  
But now I find that, im growing a little calmer everyday

### **CHORUS:**

**Like father like son, like mother like daughter.  
What is sown by the one. will grown by the other.  
What we are when we're old. Is what we learn when we're  
young.  
You may wander from the fold. Like father like son.**

### **4 BAR SOLO**

Now I'm a man, and I know a child.  
And I try to understand, when he runs a little wild.  
But I hope and I pray, that when he looks at me.  
He sees a man like he would someday want to be.

### **CHORUS:**

**You may wander from the fold, like father like son**
