

# Red River Rosie

## 11 BAR INTRO

In a little white shack near the river  
Lived a pretty young girl sweet and kind  
And they all called her Red River Rosie  
She was all that I had on my mind

When the war came and I had to leave her  
So I said wait for me if you can  
On the morning the battle was over  
I came back for Rosie, my Red River Rosie  
But she went away with some other young man

## CHORUS

**Red River Rosie I can't forget you  
Red River Rosie I love you so  
I still remember the day I met you  
And why you left me I'll never know**

## 11 BAR SOLO

But my heart is still crying for Rosie  
And I know I must find her again  
So I'm asking all over the country  
Have you seen her, tell me where and when

Many years had been gone when I found her  
And she'll never be back by my side  
A stone at a little sad graveyard  
Read here's resting Rosie, Red River Rosie  
She passed away and my heart slowly died

## CHORUS x 2
