

Jessie

Intro

Small town, Friday night, squeezed in last shouts  
When I bumped into your smile  
It's spilled mine and broke the ice  
Said gorgeous you must pay the price  
In the corner over there  
You can warm up my chair please baby 'cause

Chorus

I, like you I think you're kinda cute  
I think that we'd be good together and  
I, got a space, that's big enough for two  
For you, I got plenty, plenty, plenty of room

Instrumental

Your lips, shouldn't miss, this chance for a kiss  
Won't you let me take you home  
My house on Burton Way  
A full moon to show the way  
And my bedroom has a view  
I'd like to show to you please Jessie 'cause

Chorus

Bridge

Won't you come and build a nest in my heart  
I'm lonely on my own  
Fill up the emptiness with laughter and fun  
And make my heart your home come on Jessie baby

Chorus

I, like you I think you're kinda cute  
I think that we'd be good together and  
I, got a space, that's big enough for two  
For you, I got plenty, plenty, plenty yes  
I, like you I think you're kinda cute  
I think that we'd be good together and  
I, got a space, that's big enough for two  
For you, I got plenty, plenty, plenty of room

Instrumental
