

Golden Years

Intro

It's been such a long time, since the day you said "I Do"
But as the years have left you weaker, the stronger your love grew

There's been good times and some bad times, there's been laughter and some tears
But you've shared it all together now, you've reached your golden years

Chorus

So here's to fifty years together, it's your anniversary
Just lock up all your worries now and throw away the key
Put the bottle on the table and we'll all ring out three cheers
So God bless your mum and dad, you've reached your golden years

Instrumental

Key Change

The photo by their bedside shows the little church below
Where a young and happy couple married fifty years ago
Now their steps a little slower, and their hair has turned to grey
But that couple in the photo are, as much in love today

Chorus

Put the bottle on the table, and we'll all ring out three cheers
So God bless your mum and dad, you've reached your golden years
